

Name: Janitorial Mop Sink (600mm)

Code: JAN600

Description: A stainless steel wash basin and bucket sink combine to form the janitorial sink. Manufactured from 1.2mm thick stainless steel throughout. A monobloc mixer tap with swivel spout is fitted to the front right hand corner of the upper washbasin.

This unit is supplied with a removable bucket rest.

A service gap is provided behind the lower bucket sink to allow for the waste pipe from the wash basin. The wash basin is fitted with a 32mm flush grated waste and the bucket sink with a 38mm domed grated waste.

Legs are provided though the unit may be wall hung with the supplied wall bracket.

Dimensions: 500 x 600 x 850*

**Unit may be wall mounted at any height*

Bowl: 400 x 400 x 200mm

Hand Basin: 430 x 290 x 150mm

Waste: 1 ½" (included)
